

A cherry tree
bloom On Cambridge creek
Through all its seasons
Because it was
Rooted in the Earth and the Sun

You can bloom
Through all the seasons of your life

If your life comes
From the Source of all life
The Earth, Sun, and food

Real Healthy life does not come from
Jumping crying shouting
Immoral Preachers
Or foods
Create by corrupt immoral individuals

But by walking on the Earth and living in the Sun
While eating food created by the Earth and Sun
